Dear Lee:

I am so very delighted with the growing success of your building blood drives which you have sponsored for the past 5 years. These drives have continued to grow because of the huge effort you and your staff put into their success.

I am delighted to be working with Kasia Cichon and Wei Lee. The drives have become much more robust and we collected 29 pints of blood on June 1, 2012, the best outcome ever. I thank you for going that extra distance and making these drives so much fun and so welcoming to the tenants in your building as well as to people in neighboring buildings.

Almost 90 people will benefit from the blood or a blood product that was collected on June 1. They may not be able to thank you and your very generous donors themselves, but let me thank you for them. You all have a great deal to feel good about.

See you next year.

Very truly yours,

Marian Haberman
Account Manager
